DISPLAY LCD with several languages available

Possibility to have full caps acessory

125 mm pressing cylinder course so yiu can transfe rin high profile pieces

Other models with bigger transfer plates available

PRODUCT DESCRIPTION

Digital temperature controller;
Electronic digital counter;
Pressure apply to transfer made through pneumatic cylinder;
Pressure control with gauge to indicate valor;
Maximum heating transfer plate with 21x30 cm;
Heating place protect with Teflon sheet;
10 mm thickness rubber foam in inferior base;
Power install 1,15 Kw;
Pre pressing program available in all models;
Saving energy program as standard in all machines;

GALAXY OPTIMA	Units	GALX OPT
Heat Platen size	Cm	21 x 30
Maximum pressure apply to transfer	Kg	1800
Maximum working temperature	C	220
Power install	Kw	1,15
Weight	Kg	35
Voltage	V	230 / 50
