LCD display with several informations such us: speed, timers, working mode, etc..

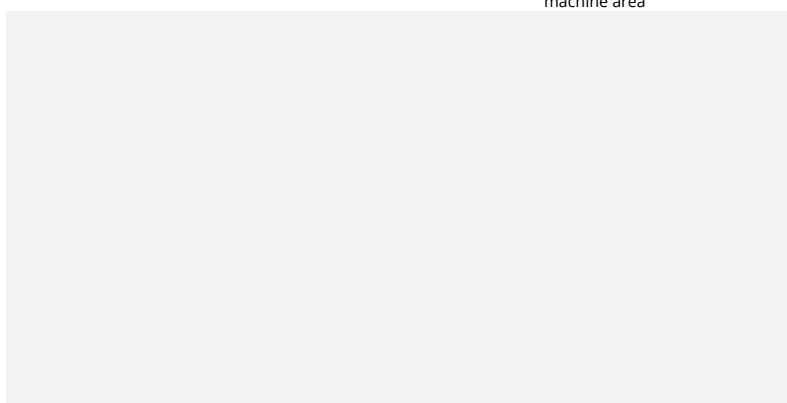

Printing table can be adjust in height up to 20 mm by using a handle

Emergency security bar with automatic reverse from descending to ensure operators safety in all machine area

Machine controlled by PLC with up/down; print/flood made by

PRODUCT DESCRIPTION

- Possibility to work 3 methods: automatic; cycle and manual;
- Printing cycle in frontal method to assure an excellent off contact and maximum exploitation from printing table;
- Individual electronic speed control from squeegee and flood bar;
- Raise and lower from printing head made by electric motor and controlled by inverter;
- Individual pressure and individual angle adjustable from flood bar and squeegee;
- Easy setup from screen - Loading by side possible as standard;
- In trap program as standard;
- Multi stroke program as standard;
- Printing table surface in coated aluminium with vacuum holes and equipped with micro registrars;
- Printing table can be adjust in height up to 20 mm;
- Pneumatic screen locking system; anti dripping systems; multi strokes program and pins in printing table to raise or register material available;

STAR PRINT	Units	SP 0507	SP 0710	SP 0812	SP 1014	SP 1214
