Halogen light source for fast and perfect screen exposing

ACOSGRAF electronic board with photocell from light intensity and communication cable between VERTSCREEN and LUX RAPID exposure lamp

Inclination and height adjustment is possible for optimal exposure result

VERTSCREEN (Flip top models) available

LUX COMPACT (self containe exposure systems) available

LUX MIDI (UV tubes less expensive models) available

PRODUCT DESCRIPTION

- Metal halogen light source;
- Light power: 3000W or 5000W;
- Equipped with a quick-start light source (no need to preheat the lamp to start work);
- Photocell for light intensity reading and automatic time adjustment;
- Digital programmer with exposure time control;
- Able to memorize 10 different programming times;
- Possibility of equipping LUX RAPID with a communication cable between VERTSCREEN and LUX RAPID to have a completely automatic panel exposure operation (equipped with a vacuum pressure gauge);
- Equipped with wheels for easy and quick movement in perfect positioning of the machine;
- Possibility of adjustment in height to obtain perfect exposure results.

LUX RAPID	Uni	LUX 3000	LUX 5000
Power from light source	W	3000	5000
Power install	W	3000	5000
Weight	Kg	70	90
Voltage	V	3x400	3x400
